The Procreative Law:

The Procreative Law Anna J. Johnson,2005-12-01 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work *Biotechnology, Gestation, and the Law* Elizabeth Chloe Romanis,2024-12-04 We are all the result of gestation the process of becoming before birth The very nature of human gestation however has shifted and will continue to shift as a result of technology Uterus transplantation and ectogestation and the novel modalities of gestation beyond sex and beyond bodies that they potentially make possible raise unique conceptual problems that have received little attention *Biotechnology Gestation and the Law* presents the first comprehensive ethico legal analysis of the nature of gestation and of technologies enabling gestation offering a concept analysis grounded in ontology phenomenology politics and law The first three chapters develop a transdisciplinary approach for identifying and exploring the ethical issues raised by uterus transplantation and ectogestation This addresses the ontological and legal confusion about what gestation is how we should classify procreative technologies in relation to gestation and why it is important to have precise classification The remaining chapters use this framework to undertake a rigorous examination of pressing socio legal implications of uterus transplantation and ectogestation who has access to technologies enabling gestation and under what circumstances Who is are the parent s when novel forms of gestation are used How do these technologies disrupt our notions of reproductive biosex and are they tools of emancipation from gendered roles This book and the original conceptual lens it sets out forges a new direction for legal and social reform directed at addressing the harms of constructed gendered procreative and parenting roles In speculating about future possibilities Elizabeth Chloe Romanis brings visibility to the oppressive propagation of biological essentialism that underpins the contemporary regulation of human procreation and considers how to address this issue now and into the future [Ethics of Procreation and the Defense of Human Life](#) Martin Rhonheimer,2010-02 A rigorous philosophical analysis of some of the most disputed questions in Catholic sexual ethics *The Ethics of Embryo Adoption and the Catholic Tradition* Sarah-Vaughan Brakman,Darlene Fozard Weaver,2008-04-08 The strength of this collection of essays is its careful consideration from a variety of perspectives within the Catholic tradition of the practice of embryo adoption It approaches the question in an open and reasonable way by allowing proponents of diverse positions within the tradition This method both sheds a great deal of light on the particular question and at the same time introduces the reader to the relevant general principles that guide Catholic moral thought **The Conservator** ,1896 **The Southern Review** Albert Taylor Bledsoe,Sophia M'Ilvaine Bledsoe Herrick,1871 *Manual of Biblical Archaeology: cont. 55. Todd A. Salzman, Michael G. Lawler, 2008-05-21 Two principles capture the essence of the official Catholic position on the morality of sexuality first that any human genital act must occur within the framework of heterosexual marriage second each and every marriage act must remain open to the transmission of life In this comprehensive overview of Catholicism and sexuality theologians Todd A Salzman and Michael G Lawler examine and challenge these principles Remaining firmly within the Catholic tradition they contend that the church is being inconsistent in its teaching by adopting a dynamic historically conscious anthropology and worldview on social ethics and the interpretation of scripture while adopting a static classicist anthropology and worldview on sexual ethics While some documents from Vatican II like *Gaudium et spes* the marital act promotes self giving by which spouses enrich each other gave hope for a renewed understanding of sexuality the church has not carried out the full implications of this approach In short say Salzman and Lawler emphasize relationships not acts and recognize Christianity's historically and culturally conditioned understanding of human sexuality *The Sexual Person* draws historically methodologically and anthropologically from the best of Catholic tradition and provides a context for current theological debates between traditionalists and revisionists regarding marriage cohabitation homosexuality reproductive technologies and what it means to be human This daring and potentially revolutionary book will be sure to provoke constructive dialogue among theologians and between theologians and the Magisterium *The Medium and Daybreak*, 1882
