*The Rainbird Pattern* Victor Canning, 2010-11      *The Rainbird Pattern* V. Canning, 1996      *Hitchcock at the Source* R. Barton Palmer, David Boyd, 2011-09-01

The adaptation of literary works to the screen has been the subject of increasing and increasingly sophisticated critical and scholarly attention in recent years but most studies of the subject have continued to privilege literature over film by taking the literary sources as their starting point Rather than examining the processes by which a particular author has been adapted into a diversity of films by different filmmakers the contributors in *Hitchcock at the Source* consider the processes by which a varied range of literary sources have been transformed by one filmmaker into an impressive body of work Throughout his career Alfred Hitchcock transformed a variety of literary sources novels plays short stories into what is arguably the most coherent and distinctive narratively stylistically and thematically of all directorial oeuvres After an introduction surveying the nature and diversity of Hitchcock's sources and locating the current volume in the context of theoretical work on adaptation nineteen original essays range across the entirety of Hitchcock's career from the silent period through to the 1970s In addition to addressing the process of adaptation in particular films in terms of plot and character the contributors also consider less obvious matters of tone technique and ideology Hitchcock's manipulation of the conventions of literary and dramatic genres such as spy fiction and romantic comedy and more general problems such as Hitchcock's shift from plays to novels as his major sources in the course of the 1930s

**Alfred Hitchcock** Gene Adair, 2002-06-06 Alfred Hitchcock is a fascinating look at the life of one of the most influential filmmakers in the world a man known for his portly profile and distinctive leery voice almost as much as for his groundbreaking movies From Hitchcock's first film *Blackmail* the first British movie with sound to his blockbuster Hollywood successes *Psycho* *The Birds* *Rear Window* and *Vertigo* Alfred Hitchcock chronicles the Master of Suspense's close working relationship with his wife Alma who was an integral part of his filmmaking process and the struggle to gain full artistic control over his work With illustrations throughout and sidebars showcasing Hitchcock's techniques and directing style Alfred Hitchcock reveals how some of the greatest films ever created came to be through the life and work of one of the most admired filmmakers ever

**Authorship in Film Adaptation** Jack Boozer, 2009-06-03 Authoring a film adaptation of a literary source not only requires a media conversion but also a transformation as a result of the differing dramatic demands of cinema The most critical central step in this transformation of a literary source to the screen is the writing of the screenplay The screenplay usually serves to recruit producers director and actors to attract capital investment and to give focus to the conception and production of the film project Often undergoing multiple revisions prior to production the screenplay represents the crucial decisions of writer and director that will determine how and to what end the film will imitate or depart from its original source **Authorship in Film Adaptation** is an accessible provocative text that opens up new areas of discussion on the central process of adaptation surrounding the screenplay and screenwriter director collaboration In contrast to narrow binary comparisons of literary

source text and film the twelve essays in this collection also give attention to the underappreciated role of the screenplay and film pre production that can signal the primary intention for a film Divided into four parts this collection looks first at the role of Hollywood s activist producers and major auteurs such as Hitchcock and Kubrick as they worked with screenwriters to formulate their audio visual goals The second part offers case studies of *Devil in a Blue Dress* and *The Sweet Hereafter* for which the directors wrote their own adapted screenplays Considering the variety of writer director working relationships that are possible Part III focuses on adaptations that alter genre time and place and Part IV investigates adaptations that alter stories of romance sexuality and ethnicity [Book Review Index](#) ,1975 Every 3rd issue is a quarterly cumulation
