To Win The Hearts:

Military Medicine to Win Hearts and Minds Robert J. Wilensky, 2004 Most important there is no evidence that the good will built by U S doctors transferred to the South Vietnamese forces and in fact the opposite may have been true American programs may have emphasized the inability of the South Vietnamese government to provide basic health care to its own people Furthermore the programs may have demonstrated to Vietnamese civilians that foreign soldiers cared more for them than their own troops did If that is the case the programs actually did more harm than good in the attempt to win hearts and minds **BOOK JACKET** **Countering Violent Extremism by Winning Hearts and Minds** Adib

Farhadi, 2020-08-06 Since 9 11 the United States and its allies have been waging an endless War on Terror to counter violent extremism by winning hearts and minds particularly in Afghanistan However violent extremism remains on the rise worldwide The effort and sacrifice of the War on Terror have been continually undermined by actions narratives and policies that many of the 1 8 billion Muslims worldwide perceive as Islamophobic Incidents of Islamophobia on the part of Western governments media and civilians whether intentional or unintentional alienate the majority of Muslims who are law abiding and would be key allies in the fight against violent extremism In Afghanistan for example violent extremist groups portray U S and NATO forces as blasphemous anti Muslim invaders to frighten Afghan villagers into compliance A similar perception weakens domestic countering violent extremism programs in the West that rely on cooperation with Muslim communities As the Great Powers Competition emerges among the U S Russia and China America and the West can ill afford any further impairment in their counterterrorism strategy The dangers of Islamophobia must be recognized and eradicated immediately In **Countering Violent Extremism by Winning Hearts and Minds** Adib Farhadi demonstrates how Islamophobia poses a threat to U S national security by utilizing historical context statistical analysis and in depth case studies Farhadi who headed Afghanistan s National Development Strategy describes how Koran burnings anti Islamic rhetoric and racial profiling harm relationships with the majority of Muslims who are not involved in violent extremism and thus perpetuate the War on Terror America has sacrificed thousands of lives and has spent more than 6 trillion on the War on Terror It can ill afford to squander more valuable resources in a strategy undermined by Islamophobia or perception of Islamophobia As Farhadi explains only through a reconciliatory narrative can we work toward a shared future where violent extremism is eradicated This book is essential reading for scholars policymakers practitioners and executives who are invested in maintaining and rebuilding American credibility essential to global security and peace **War Winning Hearts and Influencing People :Turn**

Ami Lawyer **Adapting to Win** Noriyuki Katagiri, 2014-11-05 When insurgent groups challenge powerful states defeat is not always inevitable Increasingly guerrilla forces have overcome enormous disadvantages and succeeded in extending the period of violent conflict raising the costs of war and occasionally winning Noriyuki Katagiri investigates the circumstances and tactics that allow some insurgencies to succeed in wars against foreign governments while others fail Adapting to Win examines almost 150 instances of violent insurgencies pitted against state powers including in depth case studies of the war in Afghanistan and the 2003 Iraq war By applying sequencing theory Katagiri provides insights into guerrilla operations ranging from Somalia to Benin and Indochina demonstrating how some insurgents learn and change in response to shifting circumstances Ultimately his research shows that successful insurgent groups have evolved into mature armed forces and then demonstrates what evolutionary paths are likely to be successful or unsuccessful for those organizations Adapting to Win will interest scholars of international relations security studies and third world politics and contains implications for

government officials military officers and strategic thinkers around the globe as they grapple with how to cope with tenacious and violent insurgent organizations

Rethinking Leadership and "whole of Government" National Security Reform Joseph R. Cerami, Jeffrey A. Engel, Army War College (U.S.). Strategic Studies Institute, 2010 On June 24 2009 The Bush School of Government and Public Service and The Scowcroft Institute of International Affairs at Texas A M University and the U S Army War College Strategic Studies Institute SSI conducted a conference on Leadership and Government Reform in Washington DC Two panels discussed Leader Development in Schools of Public Affairs and Leadership National Security and Whole of Government Reforms The panelists and authors reflected on the nature of external internal and transnational threats to U S security and the need for changes in developing people organizations and institutions to more effectively efficiently and ethically improve the U S Government s capacity to address the need for change The authors in this book share the belief of many in the international and public affairs community that the world is changing in fundamental ways and our traditional models for understanding America s role do not appear to be working very well A new era of reform is needed for this new age In response panelists in their detailed remarks and subsequent papers offer suggestions to reform the United States national security system to meet 21st century threats while simultaneously developing the leaders who can implement a serious and broad scale reform agenda
