Valuing Language Study:

Valuing Language Study Yetta M. Goodman, 2003 Argues for a focus on language study in elementary and middle school classrooms Presents a study of language as a whole not as isolated decontextualized bits of teaching on grammar vocabulary and sounds and advocates helping children gain greater proficiency with language by having them engage in varied activities and explorations A PRAGMATIC STUDY OF LANGUAGE AND VALUATION. BROADUS NATHANIEL BUTLER, 1952 Intersections in Language Planning and Policy Jean Fornasiero, Sarah M. A. Reed, Rob Amery, Eric Bouvet, Kayoko Enomoto, Hui Ling Xu, 2020-09-28 This volume encompasses the range of issues encountered by language scholars who teach and research in departments of languages and cultures within the higher education system predominantly in Australia but touching other universities worldwide Related studies on language planning methodology or pedagogy have focused on one or more of these same issues but rarely on their totality Intersections as a metaphor running discreetly through the essays in this volume connects them all to a lived reality The field of languages and cultures as it is practised and reflected upon in Australian universities is essentially an interdisciplinary and interconnecting space one in which linguistic and disciplinary diversities meet and join forces rather than collide or disperse along different pathways The international and local studies featured here focus on language planning new pedagogies and language reclamation and link to meeting points and commonalities They show that language scholars are increasingly finding themselves on common ground as they tackle issues of policy and practice affecting their field whether within their institutions within the tertiary system or within the framework of government policy **Languages of the Wider World** Itesh Sachdev, 2016-03-16 The last few decades have seen a stretching and exchange of local regional and national languages identities cultures and economies worldwide as a consequence of globalisation and technology development Significantly the languages of the Middle East Africa Asia the Netherlands Scandinavia Eastern Europe and Russia have been attracting increasing strategic commercial and civic attention Collectively referred to as Languages of the Wider World LWW these languages are important given the emergence of new centres of capital and cultural accumulation in the 21st century such as Brazil Russia India and China BRICs This volume focuses on LWW in use and on their teaching and learning It ranges from a highly localized focus on learners and teachers of Community Heritage Languages to broader national and international foci on policy makers and multilingualism on teachers in primary secondary and tertiary systems It aims to inspire researchers and practitioners to work on languages other than the ones that have been the mainstay of the field to facilitate the development of a vibrant and critical community of enquiry in Languages of the Wider World This book was originally published as a special issue of the Language Learning Journal Student Writing Lucy K. Spence, 2014-04-01 This book describes Generous Reading a method for approaching the writing of culturally and linguistically diverse students It draws on research and theory to help teachers tap into students cultural worlds and improve their writing addressing increasing diversity in schools across the U S and

Science Inquiry, Argument and Language Brian M. Hand, 2008 Science Inquiry Argument and Language describes research that has focused on addressing the issue of embedding language practices within science inquiry through the use of the Science Writing Heuristic approach In recent years much attention has been given to two areas of science education scientific argumentation and science literacy The research into scientific argument have adopted different orientations with some focusing on science argument as separate to normal teaching practices that is teaching students about science argument prior to using it in the classroom context while others have focused on embedding science argument as a critical

component of the inquiry process The current emphasis on science literacy has emerged because of greater understanding of the role of language in doing and reporting on science Science is not viewed as being separate from language and thus there is emerging research emphasis on how best to improving science teaching and learning through a language perspective Again the research orientations are parallel to the research on scientific argumentation in that the focus is generally between instruction separate to practice as opposed to embedding language practices within the science classroom context
