Sir Walter Scott

Vanishing Shadow:

Vanishing Shadows Namige Kayondo, 1995 Science Fiction Serials Roy Kinnard, 2015-08-13 Destination Moon
George Pal's 1950 Technicolor epic is generally cited as the first noteworthy science fiction film Usually ignored or casually dismissed in genre histories are the serials the low budget chapterplays exhibited as Saturday matinee fare and targeted almost exclusively at children Lacking stars and top notch writers or directors the serials went largely unnoticed and unacknowledged by either critics or by the film industry Yet serials were financially important to the Hollywood studios and were often free to exploit risky or outlandish subjects that producers of distinguished movies would not touch Influential serials such as *The Phantom Empire* 1935 and *Flash Gordon* 1936 finally brought science fiction themes to the big screen Those serials and 29 others are exhaustively covered in this work which provides complete cast and credit information along with plot descriptions and historical commentary for each serial Video distributors if available are also listed **Thrills**
