The Cassandra Architecture Distributed Control In A Blackboard System:

The Cassandra Architecture I. Craig, 1989 *Problem Solving In A Dynamic Environment* Yan Hong Ng, Shou-fong Chin, 1995-03-16 This book looks at the process of human cognition and the way complex problems are solved by decomposing them into a list of strategic objectives before focusing individually on each objective to plan for a tactical solution This process has been formulated by military planners in the form of the Standard Operating Procedure by which problem solving is organised into four different stages deliberation planning war meeting and plan execution This has enabled the development of a methodology for problem solving in a dynamic environment This is illustrated with the help of a six case study in chess and prediction of exchange rate movement in a foreign exchange market **The Future of Air Traffic Control** National Research Council, Division of Behavioral and Social Sciences and Education, Board on Human-Systems Integration, Panel on Human Factors in Air Traffic Control Automation, 1998-01-26 Automation in air traffic control may increase efficiency but it also raises questions about adequate human control over automated systems Following on the panel's first volume on air traffic control automation *Flight to the Future* NRC 1997 this book focuses on the interaction of pilots and air traffic controllers with a growing network of automated functions in the airspace system The panel offers recommendations for development of human centered automation addressing key areas such as providing levels of automation that are appropriate to levels of risk examining procedures for recovery from emergencies free flight versus ground based authority and more The book explores ways in which technology can build on human strengths and compensate for human vulnerabilities minimizing both mistrust of automation and complacency about its abilities The panel presents an overview of emerging technologies and trends toward automation within the national airspace system in areas such as global positioning and other aspects of surveillance flight information provided to pilots and controllers collision avoidance strategic long term planning and systems for training and maintenance The book examines how to achieve better integration of research and development including the importance of user involvement in air traffic control It also discusses how to harmonize the wide range of functions in the national airspace system with a detailed review of the free flight initiative **A Future for Knowledge Acquisition** Luc Steels, 1994-09-14 In the last few years rapid advances have been made in reproductive medicine making it necessary for those involved to regularly update their knowledge The purpose of this book is to describe the state of the art in this field making it possible for the reader to gain an orientation among all the diagnostic and therapeutic potentials of modern reproductive medicine in order to advise patients fully Chapters from the fields of gynecology and reproductive medicine in a specific sense provide knowledge about these subjects Authors of international standing have contributed chapters on their specialties These chapters together form a book describing the state of the art in the diagnosis and therapy of sterility in gynecology and andrology **Konvens 92** Günther Görz, 1992 **The University of Michigan Library Newsletter** , 1989 **Time Map Phonology** J. Carson-Berndsen, 2013-03-14 This book is a revised

version of my doctoral thesis which was submitted in April 1993 The main extension is a chapter on evaluation of the system described in Chapter 8 as this is clearly an issue which was not treated in the original version This required the collection of data the development of a concept for diagnostic evaluation of linguistic word recognition systems and of course the actual evaluation of the system itself The revisions made primarily concern the presentation of the latest version of the SILPA system described in an additional Subsection 8 3 the development environment for SILPA in Section 8 4 the diagnostic evaluation of the system as an additional Chapter 9 Some updates are included in the discussion of phonology and computation in Chapter 2 and finite state techniques in computational phonology in Chapter 3 The thesis was designed primarily as a contribution to the area of computational phonology However it addresses issues which are relevant within the disciplines of general linguistics computational linguistics and in particular speech technology in providing a detailed declarative computationally interpreted linguistic model for application in spoken language processing Time Map Phonology is a novel constraint based approach based on a two stage temporal interpretation of phonological categories as events

Speech Technology in Control Room Systems Christopher Baber,1991 **Bibliographic Guide to Computer Science** ,1990 **The Reliability of Expert Systems** Erik Hollnagel,1989 *Electronic Data Processing in Practice* Mario Becker,1989 **Formal Specification of Advanced AI Architectures** I. Craig,1991 Software Software Engineering **Knowledge Elicitation** Dan Diaper,1989 **A Program Architecture for Improved Maintainability in Software Engineering** John Einbu,1989 Conference Publication ,1992 **Designing and Evaluating User Interfaces for Knowledge-based Systems** Karen L. McGraw,1992 **Distributed Group Communication** Hugh Smith,Julian Onions,Steve Benford,1989 **Blackboard Systems** I. Craig,1995 This work is intended as a tutorial textbook on blackboard systems Initially exercises require discursive or descriptive answers later exercises require design studies It ends with a detailed description of a small system and the reader is asked to design and implement extensions to it **New Technical Books** New York Public Library,1989 **Analysis for Knowledge-based Systems** Frank R.
