A Heideggerian Anthropology

James F. Weiner

Tree Leaf Talk

James F. Weiner

Tree Leaf Talk:

Tree Leaf Talk James F. Weiner, 2021-01-07 This is the first book to explore the relationship between Martin Heidegger's work and modern anthropology. Heidegger attracts much scholarly interest among social scientists but few have explored his ideas in relation to current anthropological debates. The disciplines' modernist foundations, the nature of cultural constructionism, and of art even what an anthropology of art must include are all informed and illuminated by Heidegger's work. The author argues that many contemporary anthropologists in their concern to return subjectivity and voice to their interlocutors neglect to recognize that language and other representational practices conceal the world and human subjectivity as much as reveal it. The author also suggests that Heidegger's critique of western technology provides the basis for a return to anthropology's sociological foundations. Emerging from over ten years of original research and drawing on a rich knowledge of Australian and Melanesian ethnography, this book reassesses the underlying framework of modern and particularly visual anthropology. Innovative and provocative, it will be of interest to all anthropologists, philosophers, and students of art and culture.

Tree Leaf Talk James F. Weiner, 2001-10 This book explores the relationship between Martin Heidegger's work and modern anthropology. [Anthropological Perspectives on Global Challenges](#) Emma Gilberthorpe, 2024-03-28 This volume offers a snapshot of anthropological perspectives on global challenges. Whilst it could not hope to represent the full scope of anthropological perspectives, those that are presented highlight some of the critical flaws embedded in such an all-encompassing notion. The contributors reveal the possibilities of reimagining the ways in which challenges are understood and addressed and demonstrate how a combination of deep understanding of the past and collaboration, cooperation, and inclusive dialogue about the future can improve the chances of positive action. The collection thus not only shows us that perspectives must change but also how that change might be realised. Whilst the chapters are authored solely by anthropologists, this book is not solely for anthropologists. The book is illustrative of the practical and theoretical insights that anthropology can offer those individuals, teams, and policy and decision makers engaged in research, mitigation, and/or intervention practices in relation to the global challenges. Beyond academia, it contributes to broader understandings of the challenges we collectively face at this point in time and how we might collectively and effectively address them.

Talking Leaves Julius King, 1943 *The Heart of the Pearl Shell* James F. Weiner, 2023-11-15 For the Foi people who live on the edge of the central highlands of Papua New Guinea, the flow of pearl shells is the heart of their social life. The pearl shell is the exchange item that mediates the creation of their most important sexual and social roles. *The Heart of the Pearl Shell* analyzes a number of myths of the Foi people, elegantly bringing together significant ethnographic materials in a way that has important implications for the development of social theory in anthropology and in Melanesian studies. Scholars of semiotic, symbolic anthropology, and of comparative religion will also share the author's interest in the meaning and role of mythology in Foi culture. Instead of relying on orthodox methods of Freudian or structuralist

interpretation James Weiner assumes there is a dialectical relationship between the images of Foy myth and the images of the Foy's social world He demonstrates how each set of these images is dependent upon the other for its creation This innovative study locates Foy social meaning in the re-creation and attempted solution of the moral dilemmas that are crystallized in mythology and other poetic usages This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1988 *American Primary Teacher* ,1897 Forestry ,1885

The Rhetorical Emergence of Culture Christian Meyer,Felix Girke,2011-05-01 Just as rhetoric is founded in culture culture is founded in rhetoric the first half of this central statement from the International Rhetoric Culture Project is abundantly evidenced It is the latter half that this volume explores how does culture emerge out of rhetorical action out of seemingly dispersed individual actions and interactions The contributors do not rely on rhetorical text alone but engage the situational bodily and often antagonistic character of cultural and communicative practices The social situation itself is argued to be the fundamental site of cultural creation as will driven social processes are shaped by cognitive dispositions and shape them in turn Drawing on expertise in a variety of disciplines and regions the contributors critically engage dialogical approaches in their emphasis on how a view from rhetoric changes our perception of people's intersubjective and conjoint creation of culture Tree Talk ,1915 **Kindergarten Primary Magazine** ,1892 *The Large-type Christian cabinet* ,1878 **The Kindergarten for Teachers and Parents** ,1892 **In the Child's World** Emilie Poulsson,1893 **The Journal of Education** Thomas Williams Bicknell,Albert Edward Winship,Anson Wood Belding,1897 **Report** Iowa State Horticultural Society,1879 Includes Transactions of affiliated societies Transactions Iowa State Horticultural Society,1879 **The Rocky Mountain Educator** ,1895 *Babyhood* ,1892 **Talking Trees & Singing Whales** Charles C.
