Blueprints Virginia A. Arnold,1989      **A Cultural History of Fairy Tales in the Modern Age** Andrew Teverson,Anne E. Duggan,2023-11-02 Part six of a six volume set The Modern Age 1920 to the present In a work that spans 2 500 years these ambitious questions are addressed by over 50 experts each contributing their overview of a theme applied to a period in history With the help of a broad range of case material they illustrate broad trends and nuances of the fairy tale in Western culture from antiquity to the present Individual volume editors ensure the cohesion of the whole and to make it as easy as possible to use chapter titles are identical across each of the volumes This gives the choice of reading about a specific period in one of the volumes or following a theme across history by reading the relevant chapter in each of the six      **Queer Adolescent Literature as a Complement to the English Language Arts Curriculum** Paula Greathouse,Henry "Cody" Miller,2022-02-15 This text offers secondary ELA educators guided instructional approaches for including queer themed young adult YA literature in the English language arts classroom Each chapter spotlights the reading of one queer themed YA novel and offers pre during and after reading activities that guide students to a deeper understanding of the content while increasing their literacy practices While each chapter focuses on a specific queer themed YA novel readers will discover the many opportunities for cross disciplinary study Thw emphasis on English language arts content as a focus for teaching LGBTQ young adult literature marks a shift from the first edition      From Colonialism to the Contemporary Lance Weldy,2006 The compilation of this book has been carefully constructed to convey the essence of its title From Colonialism to the Contemporary Intertextual Transformation in World Children s and Youth Literature In other words the different chapters have been selected and ordered to illustrate the chronological effects surrounding the phenomenon of Children TM s and Youth Literature While this selection of essays as a whole does not seek to provide an exhaustive historical analysis of literature surrounding and written for children it does seek to highlight several points in time that will give the reader a sound understanding of certain shifts in ideology found in children TM s literature Furthermore the focus of this book is multivalent and interconnecting While historically tracing a few texts from around the world along a timeline this book also seeks to convey the transformative and intertextual nature of these respective texts thereby revealing that children TM s literature is not an isolated genre but instead one that conveys and is subject to all the same ideologies as other genres of literature Furthermore it is important to note that these chapters highlight texts from around the world as the title expresses Therefore the reader can see how audiences have responded to and transformed texts pertaining to such countries as India the United States and the United Kingdom as well as regions like Western Europe and Scandinavia Meta narratively speaking this book also reflects the multinational nature and audience of this book with contributing scholars writing from and representing various parts of the world Most importantly the thread that ties all of these topics together is Transformation
