Seachris,2023-11-30 Can human life be meaningful What does talk about life s meaning even mean What is God s role if any in a meaningful life These three questions frame this one of a kind debate between two philosophers who have spent most of their professional lives thinking and writing about the topic of life s meaning In this wide ranging scholarly conversation Professors Thaddeus Metz and Joshua W Seachris develop and defend their own unique answers to these questions while responding to each other s objections in a lively dialog format Seachris argues that the concept of life s meaning largely revolves around three interconnected ideas mattering purpose and sense making that a meaningful human life involves sufficiently manifesting all three and that God would importantly enhance the meaningfulness of life on each of these three fronts Metz instead holds that talk of life s meaning is about a variety of properties such as meriting pride transcending one s animal self making a contribution and authoring a life story For him many lives are meaningful insofar as they exercise intelligence in positive robust and developmental ways Finally Metz argues that God is unnecessary for an objective meaning that suits human nature Metz and Seachris develop and defend their own unique answers to these three questions while responding to each other s objections in a dialog format that is accessible to students though given their new contributions will be of great interest to scholars as well Key Features Offers an up to date scholarly conversation on life s meaning by two researchers at the forefront of research on the topic Provides a wide ranging yet orderly discussion of the most important issues Accessible for the student investigating the topic for the first time yet also valuable to the scholar working on life s meaning Includes helpful pedagogical features like Chapter outlines and introductions Annotated reading lists for both students and research level readers A glossary and Clear examples thought experiments narratives and cultural references which enhance the book s role in thinking about life s meaning and related topics **Notes of Spiritual Retreats and Instructions** John Morris,1894 **On Hell's Alleged Falsification of His Observations of the Transit of Venus in 1769** Simon Newcomb,1883 **The New View of Hell** Benjamin Fiske Barrett,1872 **The Life, Letters, and Sermons of Bishop Herbert de Losinga** Herbert de Losinga (Bishop of Norwich),1878 **The View from Here** James E. McLeod-Harrison,2017-04-17 I am the way the truth and the life says Jesus Yet the kingdom of heaven consists of all tribes races and peoples How do people of tribes who ve never heard the word of Christ enter the kingdom of God A strictly exclusivist account of the gospel seems to keep many people out of the kingdom of heaven An inclusivist approach is more consonant with Scripture and the love of God Yet standard models of inclusivism are problematic In this book McLeod Harrison a Christian philosopher considers what s wrong with both narrow exclusivist and narrow inclusivist accounts of the gospel and proposes a broad inclusivism called expansivism An expansive account of the gospel helps us understand the uniqueness and the openness of the gospel together Narrow exclusivism can lead to existential crises Narrow inclusivism appears to make not preaching the gospel better for those who ve never heard it Expansivism makes human access to the gospel unique to the individual person and enables Christian theologians to provide lots of different potentially conflicting and yet true accounts of the theological underpinnings of the salvation provided by Christ The Modern Schoolman ,1999
