Gesammelte Werke... Volume 2 Karl Stieler, 2013-12 Witnesses to Permanent Revolution: The Documentary Record Richard B. Day, Daniel Gaido, 2009-02-23 The theory of Permanent Revolution has been associated with Leon Trotsky for more than a century since the first Russian Revolution in 1905 Trotsky was the most brilliant proponent of Permanent Revolution but by no means its sole author The documents in this volume most of them translated into English for the first time demonstrate that Trotsky was one of several participants in a debate from 1903-7 that involved numerous leading figures of Russian and European Marxism including Karl Kautsky Rosa Luxemburg Franz Mehring Parvus and David Ryazanov This volume reassembles that debate assesses it with reference to Marx and Engels and provides new evidence for interpreting the formative years of Russian revolutionary Marxism **Sämtliche Werke Volume 2** HardPress, Johann Wolfgang von Goethe, 2013-06 *Volume 16, Tome II: Kierkegaard's Literary Figures and Motifs* Katalin Nun, Jon Stewart, 2016-12-05 While Kierkegaard is perhaps known best as a religious thinker and philosopher there is an unmistakable literary element in his writings He often explains complex concepts and ideas by using literary figures and motifs that he could assume his readers would have some familiarity with This dimension of his thought has served to make his writings far more popular than those of other philosophers and theologians but at the same time it has made their interpretation more complex Kierkegaard readers are generally aware of his interest in figures such as Faust or the Wandering Jew but they rarely have a full appreciation of the vast extent of his use of characters from different literary periods and traditions The present volume is dedicated to the treatment of the variety of literary figures and motifs used by Kierkegaard The volume is arranged alphabetically by name with Tome II covering figures and motifs from Gulliver to Zerlina Volume 10, Tome I: Kierkegaard's Influence on Theology Jon Stewart, 2016-12-05 Kierkegaard has always enjoyed a rich reception in the fields of theology and religious studies This reception might seem obvious given that he is one of the most important Christian writers of the nineteenth century but Kierkegaard was by no means a straightforward theologian in any traditional sense He had no enduring interest in some of the main fields of theology such as church history or biblical studies and he was strikingly silent on many key Christian dogmas Moreover he harbored a degree of animosity towards the university theologians and churchmen of his own day Despite this he has been a source of inspiration for numerous religious writers from different denominations and traditions Tome I is dedicated to the reception of Kierkegaard among German Protestant theologians and religious thinkers The writings of some of these figures turned out to be instrumental for Kierkegaard's breakthrough internationally shortly after the turn of the twentieth century Leading figures of the movement of dialectical theology such as Karl Barth Emil Brunner Paul Tillich and Rudolf Bultmann spawned a steadily growing awareness of and interest in Kierkegaard's thought among generations of German theology students Emanuel Hirsch was greatly influenced by Kierkegaard and proved instrumental in disseminating his thought by producing the first complete German edition of

Kierkegaard's published works Both Barth and Hirsch established unique ways of reading and appropriating Kierkegaard which to a certain degree determined the direction and course of Kierkegaard studies right up to our own times

Library, 1887 Kierkegaard's Journals and Notebooks, Volume 9 Søren Kierkegaard, 2017-05-09 For over a century the Danish thinker Søren Kierkegaard 1813-55 has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought psychology and contemporary aesthetics especially literary theory Despite his relatively short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press edition of all of his published writings But Kierkegaard left behind nearly as much unpublished writing most of which consists of what are called his journals and notebooks Kierkegaard has long been recognized as one of history's great journal keepers but only rather small portions of his journals and notebooks are what we usually understand by the term diaries By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects philosophical religious political personal Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought We can witness the genesis of his published works to be sure but we can also see whole galaxies of concepts new insights and fragments large and small of partially or almost entirely completed but unpublished works Kierkegaard's Journals and Notebooks enables us to see the thinker in dialogue with his times and with himself Kierkegaard wrote his journals in a two column format one for his initial entries and the second for the extensive marginal comments that he added later This edition of the journals reproduces this format includes several photographs of original manuscript pages and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced Volume 9 of this 11 volume series includes five of Kierkegaard's important NB journals Journals NB26 through NB30 which span from June 1852 to August 1854 This period was marked by Kierkegaard's increasing preoccupation with what he saw as an unbridgeable gulf in Christianity between the absolute ideal of the religion of the New Testament and the official state sanctioned culture of Christendom which embodied by the Danish People's Church Kierkegaard rejected with increasing vehemence Crucially Kierkegaard's nemesis Bishop Jakob Peter Mynster died during this period and in the months following Kierkegaard can be seen moving inexorably toward the famous attack on Christendom with which he ended his life *Papers and Proceedings of the ...
