Topics In Interstellar Matter:

Topics in Interstellar Matter Hugo van Woerden, 2012-12-06 Interstellar matter is one of the most active fields of research in present day astronomy Observational information spans the full electromagnetic spectrum from gamma rays through rocket ultraviolet optical infrared and millimeter to long radio waves Results of research in physical chemistry find as much application as mathematical methods Interstellar matter plays a leading role in studies of our Galaxy and of external galaxies and contributes increasingly to stellar astronomy At the 16th General Assembly of the International Astronomical Union held in August 1976 in Grenoble France the many new developments in this vast field were surveyed in a number of sessions of Commission 34 Interstellar Matter mostly jointly with other Commissions of the Union Separate sessions were devoted to The hot interstellar gas phase Interaction of stars and interstellar medium Interstellar molecules and dust The large scale distribution of interstellar matter in the Galaxy and Interstellar matter in external galaxies Twenty four invited review papers were presented and discussed in these sessions The quality and success of these topical reviews made it seem desirable to make them available to a wider audience Professor Edith Muller the new General Secretary of the IAU enthusiastically supported the idea Most importantly the reviewers who had originally been promised that an oral paper was the only requirement agreed to prepare written versions I am grateful to Mrs Muller to the authors and to Reidel Publishing for their collaboration in the preparation of this book

Topics in Interstellar Matter. Invited Reviews Given for Commission 34 (Interstellar Matter) of the International Astronomical Union, at the 16th General Assembly of IAU, Grenoble, August 1976, 1977 [Literature 1977, Part 2](#) Siegfried Böhme, Ute Esser, Walter Fricke, Inge Heinrich, Dietlinde Krahn, Lutz D. Schmadel, Gert Zech, 2013-03-14 Astronomy and Astrophysics Abstracts which has appeared in semi annual volumes since 1969 is devoted to the recording summarizing and indexing of astronomical publications throughout the world It is prepared under the auspices of the International Astronomical Union according to a resolution adopted at the 14th General Assembly in 1970 Astronomy and Astrophysics Abstracts aims to present a comprehensive documentation of literature in all fields of astronomy and astrophysics Every effort will be made to ensure that the average time interval between the date of receipt of the original literature and publication of the abstracts will not exceed eight months This time interval is near to that achieved by monthly abstracting journals compared to which our system of accumulating abstracts for about six months offers the advantage of greater convenience for the user Volume 20 contains literature published in 1977 and received before February 20 1978 some older literature which was received late and which is not recorded in earlier volumes is also included We acknowledge with thanks contributions to this volume by Dr J Bouška Prague who surveyed journals and publications in Czech and supplied us with abstracts in English and by Prof P Brosche Bonn who supplied us with literature concerning some border fields of astronomy [Interstellar Dust and Related Topics](#) J. Mayo Greenberg, H.C. van de Hulst, 2012-12-06 IAU Symposium Number 52 on Interstellar Dust and Related Topics was held

at Albany N Y on the campus of the State University of New York at Albany from May 29 to June 2 1972 The members of the Organizing Committee were Dr A D Code University of Wisconsin Madison Wis U S A Dr B D Donn Goddard Space Flight Center Greenbelt Md U S A Dr A Elvius Stockholm Observatory Saltsjobaden Sweden Dr T Gehrels Lunar and Planetary Laboratory University of Arizona Tucson Ariz U S A Dr J M Greenberg Chairman State University of New York at Albany Albany N Y U S A Dr H C van de Hulst Sterrewacht Leiden Holland Dr S B Pikel ner Sternberg Astronomical Institute Moscow U S S R Dr E E Sal peter Cornell University Ithaca N Y U S A Dr B E Turner National Radio Astronomy Observatory Charlottesville Va U S A The suggestion was first made in 1971 that a symposium on interstellar grains would be timely The response to the first preliminary announcement which was sent out on November 29 1971 was well beyond our expectations The meeting was locally sponsored by the State University and by Dudley Observatory The National Aeronautics and Space Administration and the National Science Foundation con tributed along with the JAU There were 158 participants of whom 49 were from 15 countries outside the United States A total of 92 papers were presented *Nuclear Science Abstracts* ,1974 Physics of the Galaxy and Interstellar Matter Helmut Scheffler,Hans Elsässer,2012-12-06 The present book is a translation of the original German edition published in 1982 with some minor corrections and improvements The guide to supplementary and advanced literature given in the Appendix however has been brought up to date This book is addressed primarily to students taking astronomy as a prin cipal or subsidiary subject and to scientists of related fields but amateur as tronomers should also be able to profit from it For most chapters an elementary knowledge of mathematics and physics will be sufficient however Chaps 5 and 6 impose somewhat greater requirements In addition the reader should already be acquainted with the basic concepts of stellar physics as treated in introduc tory books including the spectral types the system of stellar magnitudes and colours absolute magnitudes and luminosities the Herlzprung Russell dia gram and its interpretation A modem textbook should use SI units On the other hand the use of the cgs system is still the prevailing custom in astrophysics together with the special units of astronomy length is quoted in parsecs pc mass in solar masses M_{\odot} and time in years a We have therefore compromised and employed both cgs and SI units in this book whichever was the appropriate choice in each instance A table for conversion of cgs units into SI units and vice versa is given in the Appendix
