**Language Learning** Maria González Davies, 2012-01-17 This volume is the result of the presentations and discussions carried out at the Conference on Early Foreign Language Learning in Educational Contexts Bridging Good Practices and Research organized by the University Ramon Lull the University of Bari and LEND Lingua e Nuova Didattica in March 2010 At the Conference both teachers and researchers met to examine recent language teaching theories and practices from a transnational and intercultural perspective on the one hand and on the other to fill the gap in the field of English as a Foreign Language EFL in schools and to pave the way for a wider platform of discussion between School and University Since these two institutions have often had little contact and as there is excellent work carried out in both our attempt was to build more solid bridges across their contexts engaging school teachers in ongoing research and bringing everyday classroom practice nearer to university theoreticians in an open exchange forum so that the reflection on teaching and learning becomes relevant and rewarding for the participants involved in Early Foreign Language Learning in 21st century contexts Drawing on the main topics presented throughout the Conference this book has been structured around three main thematic areas 1 the Age Factor 2 CLIL and Content based research and practices and 3 developing intercultural competence use of the L1
