

THE COLOR THEORY

COLOR IS AN ELEMENT OF ART
THE COLOR THEORY IS BOTH THE SCIENCE AND ART
OF USING COLOR

THIS IS THE COLOR WHEEL

YOU CAN CLASSIFY COLORS IN DIFFERENT WAYS

1. PRIMARY COLORS

They are used to create other colors. You can't create them through mixing other colors.

2. SECONDARY COLORS

They are the colors that we have as the result of mixing two primary colors together.

COMPLEMENTARY COLORS

Pairs of colors that contrast with each other, more than any other color. They are positioned opposite one another on the color wheel.

ANALOGOUS COLORS

Three or more colors that are next to each other on the color wheel. They look very similar and when viewed together they have a pleasing appearance.

SPLIT-COMPLEMENTARY COLORS

This is a variation of the complementary scheme, where instead of using the direct opposite color, you use the two colors adjacent to its opposite.
