Sutherland, 1969 **Understanding farm animals** James Alan Sutherland, 1969 **Social Behavior in Farm Animals** J. L. Keeling, 2001 An understanding of social behaviour is increasingly necessary in farm animal husbandry as more animals are housed in groups rather than in individual stalls or pens There may be economic or welfare reasons for such housing This book is the first to specifically address this important subject The chapters fall into three broad subject areas concepts in social behaviour species specific chapters current issues Authors include leading experts from Europe North America Australia and New Zealand Animal welfare behaviour issues are becoming increasingly important Combines theoretical and practical details about the social behaviour of our most common farm species Written by leading experts from around the world Perspectives in Dealing with Surplus Male Farm Animals Nicole Kemper, David L. Criminology is the first major publication to bring together this growing body of scholarship under a single cover. For many years rural criminology has remained marginalized and often excluded from the mainstream with precedence given to urban criminology. This volume intends to address that imbalance. Pioneering in scope, this book brings together leading international scholars from fourteen different countries to offer an authoritative synthesis of theoretical and empirical literature. This handbook is divided into seven parts, each addressing a different aspect of rural criminology: Rurality and crime; Criminological dimensions of food and agriculture; Violence and rurality; Drug use, production, and trafficking in the rural context; Intersections between rural and green criminology; Policing, justice, and rurality; Teaching rural criminology. Edited by a world-renowned scholar of rural criminology, this book explores rural crime issues in over thirty-five countries, including Japan, Sweden, Brazil, Australia, Tanzania, the US, and the UK. This is the first Handbook dedicated to rural criminology and is an essential resource for criminologists, sociologists, and social geographers engaged with rural studies and crime.

Widowski, Maria José Hötzel, Gabriela Olmos Antillón, 2026-03-12. The welfare of farm animals is central to the sustainability of food production. Valid and practical methods for assessing animals on farms during transport and at slaughter are key to ensuring that their welfare is protected and is increasingly required for producing and marketing animal products worldwide. The WAFL is an international conference held every 3 years that focuses specifically on these issues. This Research Topic will contain papers submitted to the 9th International Conference on the Welfare Assessment of Animals at Farm and Group Level WAFL that will be held in Florence, Italy, August 30-31, 2024.
