Understanding People Normativity And Rationalizing Explanation:

Understanding People Alan Millar, 2004-07-08 Alan Millar examines our understanding of why people think and act as they do His key theme is that normative considerations form an indispensable part of the explanatory framework in terms of which we seek to understand each other Millar defends a conception according to which normativity is linked to reasons On this basis he examines the structure of certain normative commitments incurred by having propositional attitudes Controversially he argues that ascriptions of beliefs and intentions in and of themselves attribute normative commitments and that this has implications for the psychology of believing and intending Indeed all propositional attitudes of the sort we ascribe to people have a normative dimension since possessing the concepts that the attitudes implicate is of its very nature commitment incurring The ramifications of these views for our understanding of people is explored Millar offers illuminating discussions of reasons for belief and reasons for action the explanation of beliefs and actions in terms of the subject's reasons the idea that simulation has a key role in understanding people and the limits of explanation in terms of propositional attitudes He compares and contrasts the commitments incurred by propositional attitudes with those incurred by participating in practices arguing that the former should not be assimilated to the latter *Understanding People* will be of great interest to most philosophers of mind as well as to those working on practical and theoretical reasoning

How to Understand Language Bernhard Weiss, 2014-12-05 Why are philosophers as opposed to say linguists and psychologists puzzled by language How should we attempt to shed philosophical light on the phenomenon of language *How to Understand Language* frames its discussion by these two questions The book begins by thinking about the reasons that language is hard to understand from a philosophical point of view and armed with the fruits of that discussion begins searching for an approach to these questions After finding fault with approaches based on philosophical analysis and on translation it undertakes an extended investigation of the programme of constructing a theory of meaning Donald Davidson's advocacy of that approach becomes pivotal though the book endorses his broad approach it argues strongly against the roles both of truth theory and of radical interpretation *The Aim of Belief* Timothy Hoo Wai Chan, 2013 *The Aim of Belief* is the first book devoted to the question what is belief Eleven newly commissioned essays by leading authors reflect the state of the art and further advance the current debate The book will be key reading for researchers working on philosophy of mind and action epistemology and meta ethics **China's Modernization I** Georg Peter, Reuß-Markus Krauß, 2015-09-09 The idea of only one way leading to a modern society seems to be hardly tenable But even if we agree to this our theories and terms describing modernization are gained on our own Western history So social science has to reconsider its basic terms to describe China's modernization and maybe even the understanding of modernization itself The first of two volumes on China

s modernization collects articles by leading Chinese and Western scientists focusing on the main conflicts and differences this process involves In a first section Changing China Dealing with Diversity Bj rn Alperman analyses the terms Class Citizenship and Individualization in China s Modernization Andrew Kipnis analyses the Chinese Nation Building as Instead of and Before Globalization while John R Gibbins examines Principles for Cosmopolitan Societies Values for Cosmopolitan Places On Modernization Law Business and Economy in China the second section deals with Modernizing Chinese Law The Protection of Private Property in China by Sanzhu Zhu Chinese Organizations as Groups of People Towards a Chinese Business Administration by Peter J Peverelli and Income Gaps in Economic Development Differences among Regions Occupational Groups and Ethnic Groups by Ma Rong The last section Thinking Differentiations Chinese Origin and the Western Culture concentrates on the role of religion with articles by Richard Madsen Christianity and Hybrid Modernity in China and Thorsten Botz Bornstein Confucianism Puritanism and the Transcendental China and America Jeffrey N Wasserstrom argues that Nathan Sharansky s test for free nations should take regional variations into account in China and the Town Square Test In Metaphor Poetry and Cultural Implicature Ying Zhang examines if the Western understanding of metaphor can be transferred to Chinese language and culture The additional rubric On Contemporary Philosophy involves three articles about the question Can Science Change our Notion of Existence by Jody Azzouni The Epistemological Significance of Practices by Alan Millar and On Cappelen and Hawthorne s Relativism and Monadic Truth by J Adam Carter
