Religious Belief and the Will Louis P. Pojman, 2024-10-31 Can we ever achieve belief by a direct act of will If it will help us to be happier should we make ourselves believe propositions which the evidence alone does not warrant These are the sort of questions which Professor Pojman examines in *Religious Belief and the Will* originally published in 1986 He deals with a constellation of problems related to believing and willing to believe his main concern is with religious faith and belief though his analysis is also of interest to epistemology and ethics Pojman asks what is so important about believing propositions in the first place and why religious creeds have made propositional belief a necessary condition for salvation He considers whether one can be rational and still use the will to believe what the evidence alone does not warrant He also discusses whether faith and belief are generically related or distinct attitudes This is the first full length treatise on religious belief that approaches the subject from the viewpoint of volitional activity i e related to the will It presents a rethinking of the way the will interacts with belief a relationship often misconstrued in works of philosophy and theology Pojman believes that the will is central to religious commitment and that by understanding the relationship between the attitude of belief and the activity of willing we are enabled to get fresh insight into the classical problem of religious belief and the will

Philosophy and the Grammar of Religious Belief Mario von der Ruhr, Timothy Tessin, 2016-07-27 The papers in this collection are concerned with the epistemology of religious belief The contributors disagree on such issues as whether philosophers have a role to play in determining the reasonableness or intelligibility of religious beliefs or whether philosophy properly understood is a descriptive task But all the papers are informed by the belief that philosophical discussion should proceed by giving attention to the character of the religious beliefs and practices under consideration

Understanding Religion: Some Approaches and Attitudes Bosudha Bandyopadhyay, 2023-03-29 The term religion lends itself to various meanings and interpretations depending upon the nature education and the level of consciousness and conscience of a particular human being who actually harbors the idea or practices of his faith It is evident therefore that the concept of religion in human life and society appears to be most controversial and a complex thing which has variable meanings and significance to various human minds It is indeed pitiful to observe that in the mountain maelstrom of materialism man develops the tendency to ignore or undermine the edifying and enriching experience of religions and prefers to stay away from the path of the nourishment of his soul without which both human existence and progress are seriously endangered The practice of spiritual uplift is therefore an indispensable condition of human progress and civilization for a life conditioned by and dependent on mere material development is deemed to be fraught with utter futility The essays chosen in this volume by and large have

been written by scholars with a view to unfolding either the virtues or shortcomings of many of the principles and practices of different religions. Some of the essays have sought to examine the causes and reasons behind the unhealthy views and superstitions and also to reveal a good and elevating virtues the cultivation of which may enlighten us for the realization of the noble ideas and ideals of life. The writers have made an honest attempt to look at the grim reality of some religious superstitions in order to find out the hidden light that rise beyond the boundary of blind beliefs and faiths. Such a quest is always worthwhile for a sincere seeker in quest of truth and light. The authors of the essays have taken pains to diagnose the deep seated malady of blind belief fanaticism and dogmatism.

Challenges to Moral and Religious Belief Michael Bergmann, Patrick Kain, 2014-05 Fourteen original essays by philosophers theologians and social scientists explore the challenges to moral and religious belief posed by disagreement and evolution. The collection represents both sceptical and non sceptical positions about morality and religion cultivates new insights and moves the discussion forward in illuminating ways.

The Insider/Outsider Problem in the Study of Religion Russell T. McCutcheon, 1999-03-07 Thirty classic and contemporary readings from such writers as Kant Hume Schleiermacher and Otto to Ninian Smart Mircea Eliade Karen McCarthy Brown and Wendy Doniger.

Understanding Religion and Popular Culture Terry Ray Clark, Dan W. Clanton, 2012 This introductory text provides students with an extremely useful toolbox of approaches for analyzing religion and popular culture.

Signposts Teacher Training Module Jon Harald Bondevik, Council of Europe, 2020 As educators we often find ourselves at a crossroads. We question our education policies while trying to find the best way to meet the needs of a democratic society that is striving for peaceful coexistence in a diverse world. We try to project a better future and give more power to education so that it can contribute to the process of building that future. Signposts has come at the right time. Starting from the need to deal with religious and non religious world views in intercultural education it is a model for addressing diversity and controversy helping policy makers curriculum developers and teacher trainers to respond effectively to the new situations and challenges with which the world confronts us every day. Signposts is an important instrument for Education for Democratic Citizenship and Human Rights Education (EDC/HRE) that helps to create the culture of democracy.

Religious Belief William Sweet, 2003

The Catechism Explained Francis Spirago, 1899 This Catechism is divided into three parts. The first part treats of faith the second of morals the third of the means of grace. In the first part Our Lord appears in His character of Teacher in the second in His character of King and in the third in His character of High Priest. And since this Catechism proposes as its primary object to answer the question for what purpose are we here upon earth thereby emphasizing and giving prominence to man's high calling and destiny it is especially suited to the present day when the pursuit of material interests self indulgence and pleasure engrosses the attention of so many. This Catechism is in fact nothing more nor less than an abstract of Our Lord's teaching and may be called a guide book for the Christian on the road to heaven.
