Under The Gaze:

Under the Gaze of Angels Said Habib,2022-12-07 Under the Gaze of Angels offers treasured views of family and neighborhood life native to the Galilee in the years leading up to and following the upheavals of 1948 A collection of four stories told with simplicity and warmth they include three set during the time of British mandate rule Zuha and the Book Vendor The English Gramophone and Yildiz the Turkish Woman These are followed by the book s title work a remembrance that travels from childhood to elder years pursued by loss Imagined or recalled in exile these vivid evocative mementos quietly disarm the violence that surrounds them restoring a stolen past to memory under the gaze of angels *From Perception to Action: The Role of Auditory and Visual Information in Perceiving and Performing Complex Movements* Mauro Murgia,Tiziano A. Agostini,Penny McCullagh,2020-01-14 **Proceedings of the 2023 9th International Conference on Humanities and Social Science Research (ICHSSR 2023)** Rosila Bee Binti Mohd Hussain,Jimmyn Parc,Jia Li,2023-10-09 This is an open access book 2023 9th International Conference on Humanities and Social Science Research ICHSSR 2023 will be held on April 21 23 2022 in Beijing China Except that ICHSSR 2023 is to bring together innovative academics and industrial experts in the field of Humanities and Social Science Research to a common forum We will discuss and study about EDUCATION SOCIAL SCIENCES AND HUMANITIES INTERDISCIPLINARY STUDIES and other fields ICHSSR 2022 also aims to provide a platform for experts scholars engineers technicians and technical R D personnel to share scientific research achievements and cutting edge technologies understand academic development trends expand research ideas strengthen academic research and discussion and promote the industrialization cooperation of academic achievements The conference sincerely invites experts scholars business people and other relevant personnel from universities scientific research institutions at home and abroad to attend and exchange The conference will be held every year to make it an ideal platform for people to share views and experiences in financial innovation and economic development and related areas *Under the Gaze of God* G David Williams Cp,2020-11-27 The way I understand the gaze of God to have a defining influence on spiritual growth and development has as its overarching image the way a mother gazes at her infant at the breast It is a gaze that is tender all absorbing exclusive filled with wonder and love tranquil and protective Just as the mother s gaze engages the infant in a dialogue without words and provokes a response so too the gaze of God evokes a response from the human heart Just as the mutual gaze of mother and infant sets up a relationship which becomes the basis of communication so too the mutual gaze of God and the soul become the basis for prayer The main insight of the book is that the movement into union with God is circular rather than linear that it is not exclusively a movement into something new something that has not previously occurred but is also and more importantly a movement towards recapturing something which has already existed namely that relationship we enjoyed albeit pre consciously at our mother s breast when God looked upon us and saw that we were very good *Proceedings of the Royal Society* ,1893 *The World at a Glance* Edward S. Casey,2007 How the simple

act of glancing connects us to the wider world

Under the Gaze of Global Mental Health Janaka Jayawickrama, Jerome Wright, 2025-05-09 This book critically examines how the globalisation of mental health through the dominant medical model has created barriers to understanding and responding to distress with reference to cases from Malawi and Sri Lanka Its authors argue that mental health must be understood within the overall health of an individual and individual health is located within the social political cultural economic and environmental context in which they live Their analyses demonstrate that supplanting locally developed

responses to distress with a Western medicalised model of mental health inhibits a meaningful engagement with individuals and communities in need of care Further they argue that this supplanting is analogous with a colonial endeavour and one which diverts attention from the real problems of development Across contexts the book highlights the difficulties that mental health professionals face in facilitating individuals capacities within structurally damaging socio economic environments and increasingly commercially orientated health systems This book will appeal in particular to students researchers and practitioners working across the fields of mental health medical anthropology social work and health and development studies

Berthoz,Werner Graf,Pierre Paul Vidal,1992 The head carries most of the sensory systems that enable us to function effectively in our three dimensional habitat Without adequate head movement control efficient spatial orientation and motor responses to visual and auditory stimuli could not be carried out This is the most comprehensive and up to date account of the control of vertebrate head movements and its biomechanical and neural basis It covers the entire spectrum of research on head neck movements ranging from the global description and analysis of a particular behavior to its underlying mechanisms at the level of neurotransmitter release and membrane biophysics Physiological and anatomical aspects are stressed The role of head movements in upright stance and other functional contexts within the vertebrate hierarchy is juxtaposed with the mechanisms of orienting behavior in a number of invertebrates This reveals a plethora of solutions among different animal species for the problem of orientation in three dimensional space Although head movement control in humans figures prominently in this volume the anatomical physiological comparisons show that the human system is not unique The conference from which this volume originated surveyed current research and theory on motor control mechanisms in the head neck sensory motor system It was held in Fontainbleau France on July 17 24 1989 The book provides a broad panorama of methodological and theoretical approaches to the field of head movement control **The Wiley Handbook of Human**
