The Surrender of Sleeping Beauty Complete Series Box Set Lidiya Foxglove, 2021-06-01 Tonight I will master every inch of you And you will probably feel the urge to beg me to stop but you won't will you I was raised a princess but a witch's curse would seal my fate Only one man dared to marry me the future king of the fae I'm a long way from home In this palace there is no freedom no solitude I am his possession Corseted and gilded or stripped and bound either way I'm his to claim Anytime Anywhere It is the role of the king to dominate his bride publicly and often I am the living symbol of his strength But there is no denying his charm and the power he holds to make me crave him Even as it leads me to the most dreadful event of all the day I must submit to him before the eyes of the entire court However he has a secret of his own A secret that will lead me into the arms not just one man but two at once my beloved King Augustus and our loyal guard Count Axel A forbidden love none of us can turn away from The witch who cursed me lurks in the shadows ready to destroy us all

The Surrender of Sleeping Beauty was inspired by the life of Marie Antoinette and my love of fairy tales with a sensual twist It contains intense sexual scenes and some darker themes along with much decadence gardens and gowns and a happily ever after that is both bitter and sweet This series was originally published as the *Queen of the Sun Palace* and collects the following three books
BOOK ONE PRISONER OF SILK BOOK TWO PRISONER OF MIRRORS BOOK THREE PRISONER OF DREAMS

Mapping Fairy-Tale Space Christy Williams, 2021-04-27 Examines how popular fairy tales collapse narrative borders and reimagine the genre for the twenty first century *Mapping Fairy Tale Space Pastiche and Metafiction in Borderless Tales* by Christy Williams uses the metaphor of mapping to examine the narrative strategies employed in popular twenty first century fairy tales It analyzes the television shows *Once Upon a Time* and *Secret Garden* a Korean drama the young adult novel series *The Lunar Chronicles* the indexing serial novels and three experimental short works of fiction by Kelly Link Some of these texts reconfigure well known fairy tales by combining individual tales into a single storyworld others self referentially turn to fairy tales for guidance These contemporary tales have at their center a crisis about the relevance and sustainability of fairy tales and Williams argues that they both engage the fairy tale as a relevant genre and remake it to create a new kind of fairy tale

Mapping Fairy Tale Space is divided into two parts Part 1 analyzes fairy tale texts that collapse multiple distinct fairy tales so they inhabit the same storyworld transforming the fairy tale genre into a fictional geography of borderless tales Williams examines the complex narrative restructuring enabled by this form of mash up and expands postmodern arguments to suggest that fairy tale pastiche is a critical mode of retelling that celebrates the fairy tale genre while it critiques outdated ideological constructs Part 2 analyzes the metaphoric use of fairy tales as maps or guides for lived experience In these texts characters use fairy tales both to navigate and to circumvent their own situations but the tales are ineffectual maps until the characters chart different paths and endings for themselves or reject the tales as maps altogether Williams focuses on how inventive narrative and visual storytelling techniques enable metafictional commentary on fairy tales in the texts themselves

Mapping Fairy Tale Space argues that in remaking the fairy tale genre these texts do not so much chart unexplored territory as they approach existing fairy tale space from new directions remapping the genre as our collective use of fairy tales changes. Students and scholars of fairy tale and media studies will welcome this fresh approach.

Craving Supernatural Creatures Claudia Schwabe, 2019-06-03. Analyzes the portrayal of German fairy tale figures in contemporary North American media adaptations. *Craving Supernatural Creatures: German Fairy Tale Figures in American Pop Culture* analyzes supernatural creatures in order to demonstrate how German fairy tales treat difference, alterity, and Otherness with terror, distance, and negativity, whereas contemporary North American popular culture adaptations navigate diversity by humanizing and redeeming such figures. This trend of transformation reflects a greater tolerance of other marginalized groups in regard to race, ethnicity, ability, age, gender, sexual orientation, social class, religion, etc. and acceptance of diversity in society today. The fairy tale adaptations examined here are more than just twists on old stories; they serve as the looking glasses of significant cultural trends, customs, and social challenges. Whereas the fairy tale adaptations that Claudia Schwabe analyzes suggest that Otherness can and should be fully embraced, they also highlight the gap that still exists between the representation and the reality of embracing diversity wholeheartedly in twenty-first century America. The book's four chapters are structured around different supernatural creatures, beginning in chapter 1 with Schwabe's examination of the automaton, the golem, and the doppelgänger, which emerged as popular figures in Germany in the early nineteenth century and how media such as *Edward Scissorhands* and *Sleepy Hollow* dramatize, humanize, and infantilize these uncanny characters in multifaceted ways. Chapter 2 foregrounds the popular figures of the evil queen and witch in contemporary retellings of the Grimms fairy tale *Snow White*. Chapter 3 deconstructs the concept of the monstrous Other in fairy tales by scrutinizing the figure of the Big Bad Wolf in popular culture, including *Once Upon a Time* and the *Fables* comic book series. In chapter 4, Schwabe explores the fairy tale dwarf, claiming that adaptations today emphasize the diversity of dwarves' personalities and celebrate the potency of their physicality. *Craving Supernatural Creatures* is a unique contribution to the field of fairy tale studies and is essential reading for students, scholars, and pop culture aficionados alike.

Adapturgy Jane Barnette, 2018. Challenging the binary categories of new play and production dramaturgy, this book offers both a theoretical model for understanding adaptation for the stage and a practical guide for dramaturgs and others involved in the creation of theatrical adaptations.
